WHAT OUR ALUMNI HAVE SAID

“The Institute provided space for me to think about leadership in depth and gave me dedicated time to dialogue and learn with, from, and about others. I left feeling inspired, energized, believing that anything is possible. I consistently reflect upon and use the practices. I am now in a broader role, and I know that my growth has contributed to my abilities, perspective, understanding of complex organizations, and the importance of relationships in leadership. I feel changed.”

“The DWHLI has inspired me to go home and approach my daily activities in a more deliberate thoughtful way, with much greater insight into my own actions and motivations. It has left me with a wide range of terrific tools that I can use in my everyday work. I highly recommend the Institute to anyone who cares about the way they lead!”

“The Institute is not a conference, not a workshop, not a certificate program ... it is an experience and it is the combination of all of the elements that allow those potential watershed moments for participants.”
